**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I am a consumer of Sonic Fiber internet in San Francisco and was recently informed by them that AT&T and their trade association USTelecom have recently petitioned the FCC to take away access to critical unbundled network elements that is essential to Sonic's fiber infrastructure growth. Please do not allow AT&T to take that away from them and promote the competitive market for broadband internet or the US will continue to fall behind other first-world countries in terms of overall Internet infrastructure. Allowing this petition to go through would make Internet innovation a lot harder for years to come and make America fall behind in many aspects of society including technology overall (this is apparent as you can already see China's rapid growth of technology in Shenzhen for example). Again, I urge you to not allow this petition from AT&T to go through.

David Zou
